

'together' is best

Launched in 2002, 'together' is an annual fundraising initiative that involves Saint-Gobain Building Distribution, UK & Ireland, along with their suppliers and customers. The 'together' programme has raised over £1,200,000 since its launch.

Each year this initiative challenges employees – that's approximately 12,000 people at over 800 locations - to work together to raise funds for a staff nominated national charity through a variety of events involving friends, family, suppliers and customers.

The success of 'together' depends entirely on the enthusiasm of our staff, who contribute their own time, imagination and effort to organising fundraising events. The initiative is communicated via newsletters, articles in the in-house magazine and on the company intranet in order to keep staff updated, exchange ideas and maintain enthusiasm for the project. They regularly feature campaign news and highlight individuals who have organised successful fundraising events.
